

Master Degree Program in Global Agriculture Technology and Genomic Science (Global ATGS)

Application Guide

(For Overseas Chinese, H.K. and Macau Students)

國立臺灣大學
National Taiwan University

Introduction

* Global ATGS is an interdisciplinary master's degree program provided by National Taiwan University (NTU). In this program, students can gain a deep understanding of

1. Digital Agriculture Science and Technology

2. Genomic Science and Breeding Technology

Introduction

- * We emphasize hands-on training; therefore, this program also includes **domestic and international internship opportunities** in multiple fields. We have international connections with multiple international research organizations and biotech companies, at which students are able to do an internship and get ready for their career development.

Global ATGS aims to cultivate global bio-agricultural talents that can contribute to the pressing needs of agriculture suitability with advanced knowledge and practical skills of contemporary agriculture. Enrollment time is the **Fall of 2021**, with plans to accept **15 International and 10 Overseas Chinese Students**.
